

Mokshith S

mokshithmoksith7@gmail.com • github.com/mokshith-moksh • linkedin.com/in/mokshith-s

Summary

Full-stack developer with expertise in **React, Node.js, Kubernetes, AWS, and Rust**. Experienced in building scalable web applications, optimizing system performance, and contributing to open-source projects. Passionate about distributed systems, performance tuning, and emerging technologies such as **Web3**.

Technical Skills

Languages: JavaScript/TypeScript (Proficient), Python, C++, Rust (Intermediate), Web3 (Learning)

Frontend: React, Next.js, Redux, Tailwind CSS, Framer Motion, Fabric.js

Backend: Node.js, Express, Spring Boot, Prisma, PostgreSQL, MySQL

DevOps: Docker, Kubernetes, AWS (EC2, S3), CI/CD, NGINX

Tools: Git, Redis, Supabase, WebRTC, WebSocket, Turborepo

API's: REST , GraphQL

Professional Experience

Uniscol — Front-end Developer

Remote, Jan 2025 – Present

- Developed and maintained responsive, user-friendly UI for the [Uniscol platform](#).
- Designed and implemented a multi-role university dashboard using React, Redux, TypeScript, and Spring Boot backend.
- Improved performance by implementing caching mechanisms, efficient memory management, and optimized state management across the application.

MiddlewareHQ — Open Source Contributor

Remote, Oct 2024

- Improved CI/CD pipeline reliability from 85% to 98% by resolving build failures.
- Refactored linting rules, reducing style inconsistencies by 90%.
- Contributions available at: [GitHub Commit History](#)

Hacktoberfest 2024 — Open Source Contributor

Remote, Oct 2024

- Contributed to multiple open-source projects in JavaScript and TypeScript codebases.
 - Delivered feature enhancements and bug fixes merged into production repositories.
 - Recognized in the Holopin Hall of Fame for high-quality contributions.
 - Recognized in the [Holopin Hall of Fame](#) for high-quality contributions.
-

Technical Projects

Shipfilez - Peer-to-Peer File Sharing Platform — [Frontend GitHub](#) — [Backend GitHub](#) — [Live Demo](#)

- Engineered secure file transfers using WebRTC with DTLS encryption and congestion control.
- Eliminated server dependencies and deployed on AWS with NGINX load balancing.
- Achieved **2.5k users on launch day** with strong positive feedback from early adopters.
- Featured on Reddit ([1.6k+ views, trending in /r/SideProject](#)).
- Currently preparing system for large-scale growth and high-concurrency usage.
- Tech Stack: Node.js, Next.js, WebSocket, WebRTC, Docker, AWS EC2 , Tailwind CSS .

Video Editing Web Application — [GitHub](#) — [Live Demo](#)

- Developed an interactive video editor with draggable timeline markers, dynamic resizing, and canvas-based video controls.
- Implemented smooth state management for synchronized timeline scrubbing and canvas manipulation.
- Tech Stack: React, Fabric.js, Canvas API.

ColorCord - Discord Text Formatter — [GitHub](#) — [Live Demo](#)

- Built a specialized tool for generating Discord-compatible colored text markdown with instant preview.
- Added support for Discord's markdown syntax and color codes.
- Tech Stack: Nextjs, Tailwind CSS, Clipboard API.

Distributed Video Transcoder — [GitHub](#)

- Built a scalable video processing system with FFmpeg, containerized with Docker, and orchestrated via Kubernetes.

StageTimer — [Frontend GitHub](#) — [Backend GitHub](#)

- Developed a synchronized stage/event timer for live performances and events.
- Implemented WebSocket-based real-time updates for multiple clients.
- Tech Stack: React, TypeScript, WebSocket, Socket.io, Node.js, Express, Tailwind CSS.

Additional Projects

- **Solana HD Wallet (Web-Based)** — [Live Demo](#)
 - Built a browser-based Hierarchical Deterministic (HD) wallet for Solana, replicating Backpack wallet mechanics.
 - Supported generation of new Solana keypairs with custom derivation paths.
 - Tech Stack: TypeScript, Nextjs

Education

Rajeev Institute of Technology, Hassan — B.E. Computer Science 2022–2026
Current CGPA: 8.5/10.0

Masters PU College, Hassan — PCMCs 2020–2022
Graduated with distinction: 90.3%

Achievements

- Winner — MCE UI/UX Hackathon 2024.
- Top 5 — AIT Development Hackathon (50+ teams).
- Recognized open-source contributor to multiple projects.

Additional Information

Languages: English (Professional), Kannada (Native), Hindi (Conversational)

Interests: Open-source development, distributed systems, performance optimization, blockchain technology, Web3, Rust
